## Manager, GCMT Contract and Operations

tiwari4002@outlook.com · 519-829-8981 · imsridhar.com · linkedin.com/in/sridhar-tiwari-289bb1158 · github.com/tsri-code

### SUMMARY

Manager of contract management and operations for BeOne Medicines' Global Commercial Medical Technologies (GCMT) team, owning the end-to-end contract lifecycle, global monthly accruals, budget reconciliation and reporting in partnership with Finance, and managing the GCMT Procurement Coordinator. Background in computer science and full-stack software engineering, with prior experience in IT consulting, product leadership and client-facing delivery.

### SKILLS

| | |
|---|---|
| **Contract & Procurement** | Agiloft (CLM), DocuSign, SAP Ariba, Contract Lifecycle Management, Vendor Coordination |
| **Finance & Reporting** | Excel (advanced), Smartsheet, Accruals, Budget & Variance Analysis, Budget Reconciliation, Cost Tracking |
| **Technical** | TypeScript, JavaScript, React, Next.js, Node.js, Python, SQL, Supabase, PostgreSQL, Figma, Data Analysis |

### EXPERIENCE

**Manager, GCMT Contract and Operations** — BizInsights · Embedded at BeOne Medicines — February 2026 – Present

Lead the contract management function for BeOne Medicines' Global Commercial Medical Technologies (GCMT) team globally.

- Own end-to-end lifecycle management for 180+ active contracts in Agiloft, from inception through legal review to execution in DocuSign, with full lifecycle follow-through and detail ownership
- Manage monthly accruals globally for GCMT in partnership with Finance, including budget and variance analysis, risk assessment, and budget reconciliation across the commercial portfolio, using Excel and Smartsheet
- Own creation and management of Project IDs for GCMT, structuring cost tracking in partnership with business owners
- Serve as primary liaison between vendors and business owners throughout the contracting process, including procurement in SAP Ariba
- Manage and train the GCMT Procurement Coordinator, overseeing contract intake, processing, and vendor coordination
- Deliver quarterly reports to the global GCMT team
- Partner cross-functionally with Global Commercial Finance and Business Intelligence leadership to align contract and budget data with enterprise reporting

**Product Lead** — AudioNova.ai — January 2024 – March 2026

- Coordinated a small remote team to meet project deadlines and objectives
- Designed and developed user-facing features using Figma, Next.js, TypeScript, and Tailwind CSS

**Freelance Software Engineer / Web Developer** — Tesla Electric Windsor — December 2025 – January 2026

- Designed and developed a production website for an electrical contracting company
- Managed the project independently from planning through deployment

**Technical Consultant / Analyst (Remote)** — CGI / CI Financial / BMO — August 2022 – May 2023

- Reviewed and processed client requests with a focus on accuracy and quality control
- Provided IT consulting support related to internal tools and databases
- Supported automation and workflow improvements

### PROJECTS

**DenariWatch — Personal Wealth Management Portfolio** · denariwatch.com

*Next.js, TypeScript, Supabase, PostgreSQL, Vercel*

- Designed and built a personal finance and investing command centre for managing a full wealth portfolio in one place
- Tracks stock holdings, watchlists, asset allocation, and investment and tax-advantaged accounts

### EDUCATION

**University of Guelph — Bachelor of Computing** — 2022

Secondary Specialization in Philosophy · Graduated with Distinction

**TripleTen — Full Stack Software Engineering** — September 2024 – October 2025
